## PREPARING FOR ACTION

War Spirit Hovering Over the British Empire.

WARSHIPS ORDERED TO BE READY

Movement on Foot to Form a Court of Arbitration Between England and the United States.

Copyright, 1896, by the Associated Press. London, January 8.—The gravity of the political crisis here is increasing instead of diminishing. The attitude of Emperor William toward Great Britain in the matter of Dr. Jameson's freebooting expedition into the Transvaal, upon closer study seems to have been deliberate and long and carefully planned. The Transvaal incident, it would appear, was only the pretext seized upon by the Emperor in order to enter the field as an active opponent to Great Britain's policy of aggrandizement in Africa, and her little misunderstanding with King Prometh of Ashanti, and his support of Italy's warfare against Abyssinia, are believed to have been the irritative features which finally induced his majesty to show his hand. Of course this is only a sample of the rumors in circulation here, but it shows the drift of the wind, and has served to incense the British to a degree not witnessed since the war with Russia was threatened some years ago.

To make things worse it is now reported that the Transvaal republic will demand an indemnity of \$1,500,000 from Great Britain as one of the results of Dr. Jameson's invasion of the little Dutch republic. If this turns out to be the case no doubt will be entertained that Emperor William in his recent interview with Dr. J. Leyds, the secretary of state for the Transvaal, prompted and demanded, and may also have announced his intention of supporting it.

The report that orders have been sent to Portsmouth, Devonport and Chatham to put into commission a fleet of 150 ships of a flying squadron of warships is confirmed this afternoon and has caused a profound sensation in all circles. The flying squadron is ordered to be ready for sea by January 14th, Tuesday next. It will consist of the following ships: Revenge, first class battle ship; Royal Oak, first class battle ship; Gibraltar, first class steel cruiser; Thuleus, first class steel cruiser; Charybdis, second class steel cruiser; Heroncote, second class steel cruiser.

In addition Rear Admiral Rawson has been ordered to proceed to Delagoa Bay on board the flag ship St. George, a first class steel cruiser; and he is now on his way there, accompanied with another cruiser, with all possible speed.

Admiral Rawson has also been instructed to report immediately to the admiralty what additional steps are necessary to reinforce his squadron, and they will be sent to him as promptly as possible.

Besides these preparations the great admiralty is also taking steps to ready yards making ready for a call for the commissioning of more ships as soon as needed, and the naval reserve lists are being prepared in readiness for an emergency.

The military authorities no longer attempt to conceal the fact that they are actively preparing for the possibility of war. All the regiments of the British army reserves, volunteers, militia, etc., have been ordered to make immediate returns of their strength for mobilization, and as yet further steps in this direction have been decided upon.

Without doubt it will be in any case, sensational, it can safely be said that the war spirit is hovering over the British empire, and that people of all classes are eagerly supporting the attitude of the government in regarding the attitude of Germany towards Great Britain. The press is unanimous in its approval of the preparations of the naval and military authorities.

It may be added that there is little doubt that the Chronicle's Washington dispatches have had a very good effect here, showing as they do more than likely that Great Britain is in no mood to let the boundary dispute, following the Chronicle's correspondent's suggestion that some means of arbitration in the matter should be promptly found, a move is already on foot here among the prominent Americans and Britons to bring about the formation of a permanent court of arbitration for the settlement of all disputes between the two nations.

From Cape Town today the news is much more satisfactory than for some time past and sets at rest the annual strife added to the United States on the subject.

A dispatch from Governor Robinson, dated Fresno, January 8th, said: "I have received a telegram from the chairman of the mass meeting held at Bulawayo yesterday, saying that a resolution was passed unanimously requesting me to exert all my influence in obtaining the honorable release of Dr. Jameson and his men."

Governor Robinson also telegraphed that Captain Charles John Coventry, one of Dr. Jameson's officers, who had been reported to have died from wounds received in fighting the Boers, is alive and recovering from his wounds.

The large part of Dr. Jameson's force they were told that they were going to fight a native tribe and it was only when they had crossed the border of the Transvaal that they were told that they were going to Johannesburg, to the relief of the residents of that place, and that they would be joined by a detachment of the Cape mounted rifles, 2000 Johannesburgers and a regiment from Cape Town.

NO SIGN OF IMPROVEMENT.

Heavy Shipments of Gold Likely for Some Time to Come.

WASHINGTON, January 8.—The treasury today lost \$40,000 in gold bars, which leaves the true amount of the reserve \$57,500,204. Nothing is known at the treasury department, so far as can be learned, of any concerted movement by banks to protect the reserve by making gold deposits, and up to the hour of closing the statement published yesterday that Zimmerman & Ferney, bullion dealers of New York, had deposited \$50,000, had not been verified by Assistant Comptroller. In fact, only one bank had deposited during the last several weeks was made yesterday by the Mercantile National Bank, which exchanged \$50,000 in gold for currency. So far as can be learned the situation shows no signs of improvement, and no surprise would be felt here if heavy shipments of gold should be made on each of the European steamers for some time to come. Arrangements are being perfected at the treasury for the printing of the new bonds, and a number of applications for blanks to be used in making new bonds have yet been received.

The treasury debt of the present fiscal year to date has reached \$20,000,000.

The Markets.

SAN FRANCISCO, January 8.—Wheat Quiet—Steady; May \$1.07 1/4.

Barley—Steady; May, 70 1/4.

Corn—Steady.

Bran—\$1.15 50.

## UNIMPORTANT SESSION

Congress Convenes Late and Adjourns Early.

REPUBLICANS IN CAUCUS

Discussing the Advisability of Amending the House Tariff Bill in the Senate.

## WILL TAKE THE BONDS

First National Bank of Fresno to Subscribe.

## SUBSTANTIAL WORK

Meeting of the Hundred Thousand Club.

## FEDERAL BUILDING FOR FRESNO

Telegrams Sent by the New York World to Four Thousand National Banks.

## RAMIE CULTURE—ICE FACTORY—ELECTRIC CARNIVAL PROPOSAL—CENTRAL IMPROVEMENTS.

The First National bank of Fresno yesterday received the following telegram from the New York World: "We today ask all national banks whether, if the President makes a call to replenish the gold reserve, they will consider it their patriotic duty to take bonds on a 3 per cent basis. Will you invest, and to what extent?"

O. J. Woodward, president of the First National bank of Fresno, replied by telegraph as follows:

"Yes, if the President makes a popular loan to home people on a 3 per cent basis, we will take our portion."

In speaking on the subject yesterday Mr. Woodward said he believed the national banks generally throughout the country would take bonds, but could not say with certainty whether they would take in proportion to their capital stock, or just as each decided for itself.

Communications were received from United States Senator George C. Perkins stating that the representative from this congressional district should be urged to have an item inserted in the appropriation bill setting apart sufficient funds for the erection of a public building in Fresno, in which event the (the senator) would see that the appropriation passed the Senate.

The secretary was instructed to prepare a letter, which, when signed by members of the club and others, shall be forwarded to Hon. W. W. Bowens, requesting him to use his best efforts to have a \$200,000 appropriation passed by the Senate in the manner suggested by our senator.

Communications were also received from the Cyclops Iron Works, San Francisco; New York Weekly Recorder and Thomas E. Hargreaves.

The letter from Mr. Hargreaves touched upon the subject of the proposed establishment of six experimental stations in the United States for the culture of silk and ramie. It was thought by Mr. Hughes that many reasons could be urged in favor of the project, if only 3 per cent, that to be typified.

It may seem that 3 per cent is a small rate of interest for banks on this coast, which are accustomed to loan at from 8 to 12 per cent. But bonds at 3 per cent are like gold. Banks must always keep more or less money on hand, and these bonds can be converted into money at any time, and thus take the place of coin.

Besides, when a national bank takes these bonds, it thereby increases its capital and is allowed to increase its circulation, and thus the bonds, when lying in the bank, form the basis of a circulation, and are valuable in that respect.

The First National bank at this time holds government bonds which draw only 2 per cent.

There are at present 4000 banks in the United States. It seems probable that they will take the entire loan; yet if they should not do so there are many private persons anxious to invest in bonds besides trust companies and other banks.

A similar telegram to that quoted above was sent to the Fresno National Bank, but President McMullin said he did not believe his bank would buy any of the bonds.

Discussion turned then to the matter of bringing the additions into the city of Fresno, and the committee on that matter was authorized to call on other members to assist in getting up the necessary funds.

A design was adopted for the cut which is to be furnished the different printing offices, so that persons and firms having envelopes and letter heads printed can advertise the resources of the county, if they wish to, at no expense to themselves.

A committee was appointed to confer with the manager of the Electric Power Company as to the advisability of holding a great celebration to welcome the arrival of the company's lights and power into Fresno.

Good results having been obtained from the advertisements which the club ordered in the New York World and St. Louis *Post-Dispatch*, in the way of eliciting inquiries from intending immigrants, the advertisements were on motion ordered renewed for another four weeks.

It was decided that the club order 500 copies of the January number of the *Advertiser*, which is to be a special edition devoted to Fresno's city fair.

The good results from the Cyclops Iron Works in reference to the possible establishment of an ice manufacturing plant was then taken up and referred to the committee on manufactures.

## WHITE FRONT STORES

Will Commence Monday, January 13, 1896. Don't Forget to Attend.

### MRS. HALL'S ESCAPE

It Nearly Results in a Tragedy.

#### AN INNOCENT MAN INVOLVED

The Injured Husband and Andy Peterson Level Guns at Each Other.

The disappearance of Mrs. Hall, who deserted her husband and two children, has been published in the Kauaiian, was almost the cause of a tragedy yesterday morning. The injured husband and Andy Peterson, an innocent butcher, stood with guns leveled at each other, and had it not been for the surrender of the husband, one, if not both, would probably have been in the morgue by this time.

Mrs. Hall is still among the missing, despite the vigorous search of her husband, assisted by scores of friends. It was in one of those eager searches that Mr. Hall entered Peterson's house with a big pistol, thinking that he would find his wife and find an opportunity of killing the man who was with her.

Ever since his wife left him, Mr. Hall has entertained the idea that two butchers of this city were the cause. He therefore confined his search among the habitations of butchers, and innocent Andy Peterson, being of that occupation, came near suffering for his guilty. Peterson, residing with his wife, in small dwelling about a quarter of a mile east of the Belmont school house. He is a butcher on a small scale, buying up his own beef and peddling it in the country. He is a German aged about 27 years.

Peterson was seen by a Kauaiian reporter yesterday and the story is told in his own words:

"This morning shortly after sunrise I was awakened by a noise I recognized from sleep by the loud barking of the dog. A moment later I heard someone walk up on the front porch. The house has only two rooms and I and my father sleep in a corner of the rear room. When I heard the footsteps on the porch I got up and went to the door, leaning from the rear to the front room. Presently the front door was broken in with a crash and in came a man with a pistol in his hand."

"The man had evidently lost his balance in entering. As soon as he recovered his equilibrium he leveled his pistol at me and exclaimed: 'I've got you, I've got you.'

"At the same time he edged about the front room to get a view through the door into the rear room.

"I did not know what to make of it and I came to the conclusion that the man was insane and jumped out of the doorway and ran away. I ran to my father which was hanging on the wall. In doing this I cut off the man's sight."

"I put my rifle, cocked it, and shielding my body by the wall I raised the rifle through the doorway, intending to make short work of the dangerous fellow. Just as I was getting a good sight on him he threw his pistol down and cried out, 'Don't shoot; I am afraid.'

"I then asked him what he wanted.

"I then asked him what he wanted. 'I want to find my wife,' was his reply.

"I told him that there was no woman in the house, and he asked who was in the bed with me. I answered that it was my old man, meaning my father. He then asked me to show him through the house, which I did, and was even well out into the kitchen. During this time he leveled his pistol in his hand and I had my rifle.

"He asked me his name and I told him. He then apologized for the trouble he had caused me and wanted to pay for the damages in breaking in the front door. I said that he had better wait and pay me some other day."

"He told me his name was Hall and that he had been searching during the past three days for his wife, who had run away. I told him that he had to pay his trouble and did not know what he was doing half the time. He then walked out to the road where a man in a buggy was waiting for him, and they drove off.

"About an hour afterwards Hall returned alone in the buggy and begged me not to have him arrested. He told me about his wife's desertion and his fruitless search for her, and that he had thought that she was in my house. He then asked me to show him through the house, which I did, and was even well out into the kitchen. During this time he leveled his pistol in his hand and I had my rifle.

"He then asked me his name and I told him. He then apologized for the trouble he had caused me and wanted to pay for the damages in breaking in the front door. I said that he had better wait and pay me some other day."

"He told me his name was Hall and that he had been searching during the past three days for his wife, who had run away. I told him that he had to pay his trouble and did not know what he was doing half the time. He then walked out to the road where a man in a buggy was waiting for him, and they drove off.

"He however, proved to be a mistake. While driving along the road, Pierce threw his arms around the officer, held him firmly and took his pistol away from him. He then threw Pierce out of the buggy, taking up the lines drawn off the front of the buggy, and both claimed that had there been a shooting affray the other would probably have been the victim.

In his talk with the reporter Peterson stated emphatically that he had never seen his wife since he left her. He is an industrious and highly respectable young man.

As has been stated, Mr. Hall has a small army of aspiring amateur detectives searching for his wife, but they have as yet not found her. She is stopping with a private family in the northern part of town.

In justice to Mrs. Hall it should be stated that she has friends who say her husband's charges that she is somewhat gay are not true. They say she left home because her husband's treatment was no longer her husband's treatment.

Mr. Hall is stated to have left Fresno last night in a rig with other parties, and said that she was going to Salina to take the north-bound train. Whether this is true, the statement was made to put her husband on a false trail remains to be seen.

Jesse P. Sayre, son of Supervisor J. H. Sayre, was in town yesterday on his way to Phoenix, A. T., where he will practice law. Young Mr. Sayre was recently admitted to practice before the supreme court of this state.

Warren Dutton of San Francisco has asked the court to appoint a receiver for Fava's Favorite, a candy store in the county. He claims that the large stockholders are freezing out the small ones.

#### HONOR TO WHOM IT IS DUE

The Barton, St. George and Eisen Vineyards at the Citrus Fair.

In the hurry of the citrus fair, and in the multitude of honorable mentions which have been made, the papers of this city fell short of the words of commendation deserved by the Barton, St. George and Eisen vineyards. They were mentioned, in common with other exhibitors, but the extent of their contributions to the success of the fair justifies a special notice, and the giving of honor to whom it is due.

For the first time, the vines made a herald display of choice wines, not only to the eye, but they opened the casks with a generous hospitality, and every visitor who wished was given practical proof of the superiority of Fresno wines.

Mr. Malter was unavoidably absent, but it is understood he sent orders to him to leave nothing undone that could contribute to the success of the fair, and these orders were obeyed in every particular.
